

The 3rd International Symposium on Lipid Science and Health

3-5 November 2018, Qingdao, China

(First Announcement)

Lipid is one of the three major nutrients of human beings and plays an important role in human nutrition and health. The structure and composition of lipids are closely related to their biological functions and nutritional quality. Lipid has been becoming a hotspot for health and nutrition research all over the world. In order to promote the rapid development of lipid science and health research and enhance academic communications, The 3rd International Symposium on Lipid Science and Health (3rd ISLSH), hosted by Oil Crops Research Institute of Chinese Academy of Agricultural Sciences (OCRI-CAAS), will be held in Qingdao, China, November 3rd-5th, 2018. We sincerely invite all experts and scholars to attend the conference.
