To Whom it May Concern:

Declaration for recalibration freeness of the NanoPhotometer™ P-Class (P 300 / P 330 / P 360)

This is to certify that the Implen NanoPhotometer™ P-Class is recalibration free.

There are no loose optical parts which can change the performance and accuracy of the technology. Therefore, the NanoPhotometer™ P-Class has an accurate performance over the life-time.

For further information about correct handling of our technology (e.g. unpacking, positioning and installation of the product) please refer to the user manual or get in touch with our Support team (support@implen.de).
