RoHS Directive 2002/95/EC Compliance

Dear Compliance Director:

None of our products contain any of the ingredients listed in the RoHS directive, such as lead, mercury, cadmium, hexavalent chromium, PBB, or PBDE as intentional ingredients. However, all of our products are potable water-based products, and therefore may contain some trace impurities routinely found in potable water. We have not checked for PBB or PBDE, but do not expect these flame-retardants to be found in any of our products.

Please call us at (609) 386-8770 or email us at mkt@ipcol.com if you have any further questions regarding our products.

Best regards,

Kathy J. Wyrofsky
President
