

Sensitive. Fast. Flexible.
Agilent Cary 610/620 Series FTIR
Microscopes and Imaging Systems

Abstract:

The Agilent Cary 610/620 FTIR microscopes are the highest performing, most versatile FTIR microscopes and spectrochemical imaging systems available. The systems are used in conjunction with the Agilent Cary 600 Series FTIR — the world's best FTIR. The Cary 610/620 are suitable for researchers in fields such as polymers/materials, pharmaceuticals, biotechnology, chemicals and forensics.
