

PrimeMate™ Oil Change System

ACCESSORY FOR ROTARY VANE VACUUM PUMPS

Scan this code to see a demonstration.

Vacuum Pump Oil Change Made Easy

Less mess

Reduces the hassle and mess of changing the oil in your rotary vane or hybrid pump. Depending on your pump, the PrimeMate performs up to 4 oil changes before the clean oil container must be replaced or refilled and the used oil container emptied.

Fast

Less than 13 minutes to drain the used oil and fill with clean oil.

Portable

Fits on a lab cart so that it may be easily transported to and shared by vacuum pumps throughout the building. Quick connect coupler attaches to your pump's drain port for easy tubing attachment. An optional battery pack allows the PrimeMate to operate when a wall receptacle is not accessible.

*Protecting your
laboratory environment*

LABCONCO®

PrimeMate™ Oil Change System

SPECIFICATIONS & ORDERING INFORMATION

Components include powder-coated housing with lift off cover; one empty 1 gallon (3.8 L) plastic used oil container; one empty 1 gallon (3.8 L) plastic clean oil container; two peristaltic pumps (one fill and one drain); 6' (1.83 meters) drain/fill flexible tubing with connectors; power switch; drain switch; fill switch; and indicator lights for 'power', 'draining', 'filling' and 'waste full'. Also includes 12 volt DC power supply, power cord

with plug, and male 1/4 NPT coupler for connection to a user-supplied rotary vane vacuum pump. *Note: the coupler fits rotary vane vacuum pumps sold by Labconco Corporation. If user-supplied pump has a drain port not compatible with a 1/4 NPT coupling connection, a suitable adapter will be required.* See accessories. Dimensions: 16.4" w x 13.4" d x 15.75" h (41.6 x 33.9 x 40.0 cm). Shipping weight 32 lbs. (14.5 kg)

PrimeMate Oil Change Systems

Catalog Number	Electrical Requirements	Plug Type
7357020	115 volts, 60 Hz, 1 amp	115 volts, 15 amp NEMA 5-15P
7357030	230 volts, 50/60 Hz, 0.5 amp	230 volts, Schuko CEE 7/7
