

Agilent Cary 7000 Universal Measurement Spectrophotometer

## **ADVANCE YOUR MATERIALS**

### **Abstract:**

Do you measure the optical properties of coatings, thin films, optical components, solar cells, or glass?

Do you measure reflectance AND transmission?

Do you want to reduce your cost-per-analysis, and save time and money?

Do you want to measure transmission, reflection and absorptance at any polarization without moving the sample?

**With the Cary 7000 UMS, you can.**
