

High Voltage Test Setup for HV Laboratory

Input voltage	: 230 volts, Single phase
Output voltage	: 0 to 200kV DC @ 10mA 0 to 100kV AC @ 10mA
Metering	: Analogue kV meter Digital kV meter HV Grid & safety lights

The entire setup covers an area of 20' X 15' & has all the item within that.

Type : ZHS/01/41
