

Water Activity

Experience the future of water activity measurement today with the eFWM Solo. Where technology meets simplicity, your assurance in product quality and safety is our priority.

Some features

- Highly Accurate Humidity Sensor
- Crystal Clear 1.28" Display
- Innovative Built-in Gyroscope Technology
- Effortless Data Management
- Compact and User-Friendly

Enhance Your Measurements with Optional Accessories

- eFWM Dock to connect up to 4 solo
- Temperature regulation
- Fan
- Wifi and/or Bluetooth communication

- SOLO

Specifications:

Highly Accurate Humidity Sensor

- Operating Range: 0% to 100%
- Unmatched Accuracy: +/- 0.018 of AW across the full range, and +/- 0.005 of AW within a 0.3 variation
- Switch Response: 5 to 12 minutes, adaptable to sample and AW range
- Accuracy of temperature +/- 0.2°C

Crystal Clear 1.28" Display

- Shows AW, temperature, date/ time of measurement, battery life, and recent measurements
- Conveniently located at the top for easy reading

Extended Battery Life

- Powered by a durable LiPo battery for a full day's work

Innovative Built-in Gyroscope Technology

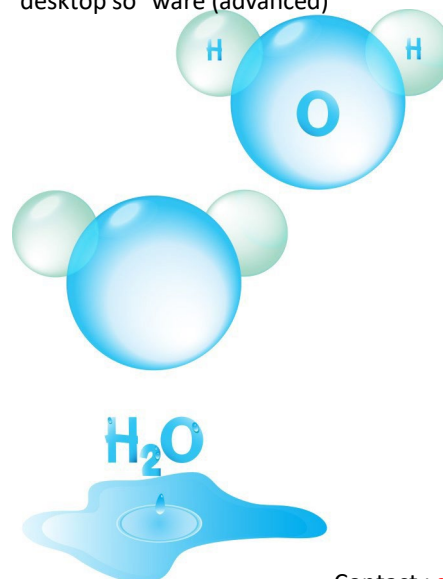

- Auto-initiates measurement, conserving battery with sleep mode

Effortless Data Management

- Store a full day's data without needing a PC connection
- Transfer data seamlessly to PC software for traceability

Compact and User-Friendly

- Dimensions: Height: 60 mm, Diameter: 75 mm
- Includes USB C cable, 20 plastic cups with caps, 2 salt solutions, and desktop software (advanced)
